

In-home support

Personal care, household tasks and building skills, in the home you already have, at the times that suit you.

In plain English

- Support in the home you already have, whether you live on your own or with family.
- Personal care, household tasks and building skills, at the times that suit you.
- We keep a small, steady group of familiar workers, matched to what matters to you.

Who it suits

A good fit for people living on their own or with family who want the same familiar workers.

Not sure it is the right one? Our [find the right support](#) questions can help, or ask us.

How it is usually funded

Usually funded from Core supports (Assistance with Daily Life), and sometimes Capacity Building for skills.

Core supports pay for help with daily life. Capacity Building supports pay for building skills and independence over time.

Prices are checked against the NDIS Pricing Schedule 2026-27. The NDIA decides what a plan funds, not us.

How to start

1. **Tell us three things.** Who you are and how to reach you, the person's first name and area, and the support they want.
 2. **We reply promptly.** With a clear yes, a question, or an honest no.
 3. **We meet and plan.** With your consent, we meet you and the people you choose.
 4. **A plain-language service agreement.** What support, when, and at what price. Nothing starts until you are happy with it.
